PROCEDURES PERFORMED AND NOT PERFORMED IN THE CLINIC

Procedures Performed in the Clinic

Antegrade cystography
Antegrade urethrogram
Aspiration of hydrocele/lumphocele +/- injection of sclerosing agent
Biopsy or excision of genital/perineal lesion (local anesthesia)
Bladder biopsy
Bladder Instillation
Bladder irrigation
Catheterization
Circumcision
Cold cup bladder biopsy
Condyloma - topical chemotherapy or laser fulguration
Corporal irrigation/Shunting for priapism
Cystogram
Cystometrogram
Cystoscopy
Dressing change
Emergency percutaneous cystotomy
EMG (Electromyography)
Endoscopic retrieval of foreign body from bladder/urethra
Endoscopy of conduits, continent pouches and/or neobladders
Excision penile skin lesion
Excision scrotal skin lesion
Extra corporeal shockwave Lithotripsy (ESWL)
Flowmeter studies
Intravenous Pyelogram
Irrigation of clots, +/- endoscopic fulguration of bladder
KUB
Loopogram
Lymph node aspiration/biopsy
Microscopic exam of urine for bacteria, Crystals
Nephroscopy through established tract +/- stone extraction
Nephrostogram
Nephrostomy - cystostomy tube change
Pelvic Examination
Percutaneous nephrostomy
Percutaneous renal biopsy
Pharmacologic erection (Corporal injection)
Place, replace and/or remove catheter or ureteral stent
Post void urine determination
Prostate Needle Biopsy/Aspiration
Renal cyst puncture and cystogram
Renal sonography
Retrograde Pyelogram
Retrograde urethrogram
Sacral evoked response determination
Semen analysis
Subtracted voiding pressure determination
Supra Pubic Catheter Placement and Replacement
Suture removal
Testicular Scan
Transrectal U.S. with prostate biopsy
Transrectal U.S. with fiducial marker placement
Transrectal ultrasonographic exam of prostate
Transurethral U.S.
Transurethral ultrasonographic exam of bladder
Urethral dilatations
Urethral washing (cytology)
Urethroscopy (e.g., S/P cystectomy)
Urine culture and sensitivity
Urodynamics Bladder Studies
Vasectomy
Visual urethrotomy
Waived Testing: Blood Glucose Monitoring, Multistix 10 SG, Hemoccult, UPT

**Procedures Not Performed in the Clinic**

Any procedure requiring a general or spinal anesthesia

**Note:** Selected procedures may be performed under conscious sedation as deemed appropriate by the physician.
